

## GET YOUR HEAD IN THE GAME:

Ask yourself these questions

- What's the end goal?
- Who is this going to benefit?
- What does success look like for this project?

## MAKE A GAME PLAN

- Identify constraints and know where potential pitfalls are
- Prioritize steps, define dependencies
- Set timelines

## PIVOT WITH THE BALL:

Keep your plan agile

- What-If modeling to make resource adjustments
- Impact analysis to see how changes impact overall plan and timelines
- Predictive analytics streamline re-planning of project roadmaps

## PICK YOUR STARTING LINEUP

- Assign resources
- Request additional resources if needed
- Allocate budgets

## WORK THE CROWD:

Get stakeholder buy-in

- Understand the impact of the project
- Show how the goal of the project aligns with the business
- Get stakeholders to support the initiative

## WIN THE GAME

- Demonstrate value from the project
- Report the outcome
- Keep projects on time and under budget
- Maximize resource efficiency
